

ENGINEERING AEROSOLS

ZINC SPRAY MATT (98% ZINC)

Code: 155885
Barcode: 5411183090736
Box Quantity: 6x400ml

High-grade zinc spray (98% zinc) for cold galvanizing. Protects zinc and unprocessed iron and steel against corrosion. Thanks to its cathode action, the spray is very economic and effective. Ideal for recovering galvanized surfaces.

Applications: Suitable for coachwork, gutter braces, weld joints and spot welding.

ALU-ZINC SPRAY SHINY (98% ZINC)

Code: 154608
Barcode: 5411183090743
Box Quantity: 6x400ml

High-grade Alu-Zinc spray for cold galvanizing. Protects zinc and unprocessed iron and steel against corrosion. Thanks to its cathode action, the spray is very economic and effective. Provides a smooth and shiny surface.

Applications: Suitable for coachwork, gutter braces, weld joints and spot welding.

CONTACT SPRAY

Code: 119715
Barcode: 5411183090750
Box Quantity: 6x400ml

Universal cleaning and maintenance spray for electric contacts. Dissolves dirt and oxides and restores contact. Prevents interference and current leakage as a result of penetrating damp.

Applications: electric contacts such as switches, batteries, potentiometers, slide and drag contacts, selectors, etc.

CUTTING OIL

Code: 119717
Barcode: 5411183090774
Box Quantity: 6x400ml

High grade oil that prevents overheating of metals during cutting and drilling activities. Reduces the cutting resistance and the mechanical load on the tool.

Applications: Drilling, milling, sawing, filing, tapping, turning, planing and punching of steel and most non-ferrous metals.

DEGRIP ALL

Code: 119716
Barcode: 5411183090767
Box Quantity: 6x400ml

An effective product to loosen rusted and oxidized screws and parts. Its low surface tension allows the oil to penetrate into the smallest cavities and loosen components.

Applications: machines, bolts, nuts, flanges, etc.

FREEZE SPRAY

Code: 158034
Barcode: 5411183181113
Box Quantity: 6x400ml

Troubleshooting spray with an immediate "cold-shock" effect. The freeze spray brings temperature of the treated surface down to -50°C and uses this as a cold cracking effect to quickly cool parts down and cause microscopic cracks in the corroded and rusted surfaces. The freezing effect prevents thermal interruptions of electrical components and heat damage during soldering. The spray is odorless.

Applications: Suited for all daily maintenance operations, but also in tougher applications where standard penetrating lubricants will not work. No need for a hammer, a torch or cut-o wheel required for disassembly. High capillary power. Suitable for moving parts such as: bolts, nuts, studs, pins, hinges and all kinds of screw threads.

SOUDAL

TECHNICAL AEROSOL SPRAY RANGE

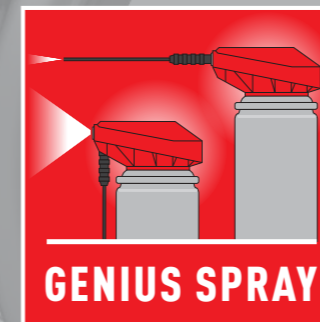

The Soudal Group has over 50 years of experience in the production of high-profile technical sprays.

Our new state-of-the-art production site is one of the most technologically advanced in the world. With a core focus on innovative product development, automated production and strict quality control protocol, Soudal has remained at the forefront of the ever-growing aerosol market.

Our extensive range of Technical Aerosol Sprays are categorised into three application groups: Lubricants, Industrial Applications and Cleaners. Developed for a multitude of applications, the comprehensive range of specialist aerosols are proven formulations for various industries.

GENIUS SPRAYS

SPRAY 2 WAYS

Straw forward: precision application
Straw downward: wide spray pattern

CLEANING AEROSOLS

CLEANER & DEGREASER

Code: 119708
Barcode: 5411183090682
Box Quantity: 6x400ml

Powerful, fast-drying cleaner and degreaser for a wide range of applications. Ideal for preparation of surfaces before applying glue or joining. Ideal for removal of excess, unhardened MS, PU or silicone sealants, excess tar, grease and wax.

Applications: Suitable for use most non-porous surfaces (metal, plastics, PVC, etc.) and leaves no trace. Prepares surface prior to applying sealants or adhesives.

ADHESIVE REMOVER

Code: 119710
Barcode: 5411183090705
Box Quantity: 6x400ml

Transparent solvent mixture suitable for removing fresh glue stains and cleans brushes, palette knives and glue spatulas. Removes hard excess contact glue. Not suitable for polystyrene and Plexiglas. May damage certain surfaces (e.g. plastics).

Applications: Removes fresh adhesive from surfaces. Cleans brushes, palette knives and spatulas. Not suitable for polystyrene and Plexiglas. May damage delicate surfaces (e.g. plastics).

MULTI CLEANER

Code: 119711
Barcode: 5411183090712
Box Quantity: 6x400ml

A universal cleaning spray that foams upon application. A non-drip formulation, making it ideally suited for cleaning vertical surfaces.

Applications: Suitable for use on glass, tiles, mirrors, laminate, PVC, kitchens, car interiors, textile, carpets, office equipment, etc.

SEALANT REMOVER

Code: 119709
Barcode: 5411183090699
Box Quantity: 6x400ml

A ready-to-use and fast-working spray based on terpenes for removing hardened silicones and MS polymers.

Applications: Suitable for use on most surfaces, including aluminium, coatings, laminated board, paint and certain plastics.

LABEL REMOVER

Code: 158036
Barcode: 5411183181090
Box Quantity: 6x400ml

Citrus based cleaner for the effective removal of adhesive residues. It is a non-aggressive mixture and contains natural solvents with excellent cleaning and degreasing properties. Multi-purpose and safe in use.

Applications: Suitable for removing fresh adhesive residues. Ideal to remove grease, oils and other dirt residues.

GLASS & MIRROR FOAM CLEANER

Code: 156176
Barcode: 5411183177093
Box Quantity: 12x750ml

Professional quality, sprayable foam-action cleaning agent that provides a spotless streak-free finish. The high yield formulation foams upon application to give greater coverage.

Applications: Suitable for cleaning most types of glass, mirrors, plastics and other hard surfaces.

COMPRESSED AIR

Code: 158031
Barcode: 5411183181144
Box Quantity: 6x400ml

High-pressure air spray for use wherever dust has to be removed without making physical contact with the object or surface. Allows dry, contact-free cleaning.

Applications: Developed for cleaning electronic equipment, optical equipment and lenses, precision clockwork, medical devices, measuring devices and any other sensitive surface.

BRAKE CLEANER

Code: 119712
Barcode: 5411183090729
Box Quantity: 6x400ml

Powerful, fast-drying cleaner for brake and clutch parts. Removes excess brake fluid, excess oil, dirt, etc. quickly. Prevents squeaking brakes and clutch slipping. Easy to apply from all angles and does not corrode metals.

Applications: Ideal for use on brake and clutch parts.

COCKPIT MAINTENANCE (MAT COLOR)

Code: 158038
Barcode: 5411183181076
Box Quantity: 6x400ml

High-end silicone-free cockpit spray for protection and maintenance of the dashboard in cars. Prevents parts from squeaking and cracking. Provides a lasting protection against aging and stops the material becoming brittle. Anti-static and saving continual dusting. After application it leaves a lemon scent.

Applications: Suitable for all types of plastic and provides optimum care. It refreshes up the colors and leaves a matt appearance.

COCKPIT CLEANER

Code: 158037
Barcode: 5411183181083
Box Quantity: 6x400ml

High-end cockpit foam-action spray for cleaning the dashboard and the complete interior within cars. It absorbs organic dirt and leaves no traces. The product is gentle on all surfaces.

Applications: This foam-action cleaner provides gentle cleaning, for use on plastics and other materials used in interiors of cars.

RIM CLEANER

Code: 158035
Barcode: 5411183181106
Box Quantity: 12x400ml

High-quality concentrated cleaning foam-action spray for effective cleaning rims, providing a long lasting cleaning effect. Powerful non-drip formulation, ensuring the complete removal of any dirt accumulated on the wheel surfaces. High cleanliness properties and extreme dirt resistance.

Applications: Well suited for aluminum and plastic rims.

DE-ICER

Code: 157330
Barcode: 5411183178496
Box Quantity: 12x750ml

Fast-acting de-icer with anti-freeze properties. Removes frost deposits from car windows and locks, preventing re-freezing. The de-icer formulation has a degreasing effect, leaving no trace after application. It is not harmful to paint, chrome or rubber.

Applications: Suitable for use on vehicle windows and locks for fast removal of surface ice/frost in temperatures up to -20 °C.

PVC SPRAY CLEANER

Code: 156175
Barcode: 5411183177086
Box Quantity: 12x750ml

Highly effective, fast acting and drying spray cleaner that removes ingrained dirt and marks on white PVCu frames and other plastics. The solvent based formulation is non-smearing and has a pear drop odour upon application.

Applications: Removes ingrained dirt, grease, unured sealant, pencil and pen marks from PVCu window and door frames. Also suitable for cleaning white plastic garden furniture.

FOIL SAFE SPRAY CLEANER

Code: 161040
Barcode: 5411183187542
Box Quantity: 12x750ml

Fast-acting cleaner that removes ingrained dirt and marks on all foil wrapped PVCu, white PVCu and aluminium frames. The non-abrasive cleaning action provides a spotless finish on sensitive surfaces.

Applications: Removes adhesive residue, sealants, dirt and grease from PVCu, Foil and Aluminium window and door frames.

LUBRICATING AEROSOLS

VASELINE SPRAY

Code: 119703
Barcode: 5411183090637
Box Quantity: 6x400ml

Transparent lubricating and protective spray. Provides lubricating action on metals and plastics and protects against water and weather conditions, diluted acids and alkalis, as well as general wear and tear. To be used at low pressure levels. Temperatures up to +150 °C. Silicone free.

Applications: door and window hinges, nuts and screws, garden tools, sliding and rolling shutters, etc. Do not use for drums and brake disks.

WHITE GREASE

Code: 119706
Barcode: 5411183090668
Box Quantity: 6x400ml

High-grade lubricant based on white lithium soap with PTFE for heavy duty applications. Has a double effect: on the one hand it sprays like oil and has penetrating characteristics and on the other hand it sets like grease and has good adhesive properties and good pressure resistance. Temperatures up to 120 °C. Waterproof and protects against corrosion.

Applications: machines, ball bearings, axles, sprockets, conveyor belts and rubber sealing profiles, etc.

SILICONE SPRAY

Code: 119704
Barcode: 5411183090644
Box Quantity: 6x400ml

Transparent spray with adhesive characteristics based on high-grade silicone oil. Lowers friction and reduces wear of mechanical parts and is ideally suited for light lubrication of plastics and rubbers. In addition, prevents dirt and grease deposits. Creates a water-repellent layer and protects from moisture. Temperatures up to 200 °C.

Applications: sliding doors and rubber seals, rails, electric wiring of cars, engines, lawn mowers, etc.

MULTI SPRAY

Code: 119707
Barcode: 5411183090675
Box Quantity: 6x400ml

High-grade universal spray with 8-fold action: it works as a rust remover, lubricant, cleaner, penetrating oil, resists corrosion, is damp repellent and also works as a contact spray and shock spray. A protective film remains after cleaning. Does not corrode plastics and metals. Prolongs the life of rubbers.

Applications: screws, bolts, nuts, moving parts, axles, hinges, chains, garden tools, etc

PTFE SPRAY

Code: 119705
Barcode: 5411183090651
Box Quantity: 6x400ml

High-grade lubricant based on PTFE to treat metal and plastic parts. High penetrating performance. Suited for parts which are subject to sustained or high pressure and temperature loads. Repels water and dirt. PTFE offers long-life protection against friction and prevents wear. Very good mechanical and thermal stability.

Applications: machines, pulleys, (bicycle) chains, gears, ball bearings, conveyor belts, etc.

DRY LUBRICANT

Code: 158032
Barcode: 5411183181137
Box Quantity: 6x400ml

Very powerful silicone-free and mineral-oil-free lubricant with high resistance. Offers lasting wear protection.

Applications: Suitable for dry lubrication of friction points. Developed for applications where silicone-containing products are undesirable. Can be used as a lubricant and as a release agent, to be used on many different machines within the wood & plastics industry. Can be used for metals, plastic, rubber etc. under low and medium loads. Ideal for sliding roof and seat rails, sliding doors, window tilt mechanisms, locks, hinges, drawers, guide rails, ball bearings, electrical parts etc.

ASSEMBLY LUBRICANT

Code: 158033
Barcode: 5411183181120
Box Quantity: 6x400ml

High-end silicone-oil based spray that is extremely suitable as a slide coating.

Applications: Can be applied for the assembly of plastic pipes, rubber strips and joints, preventing for aging of rubber parts. Also applicable for sluggish locks, hinges, fittings and tools.
