

De-icer

Product description

Quickly defrosts ice and snow (up to -20° Celsius) on your windshield and other windows, without leaving a trace.

Properties

- Fast acting
- Leaves no residue
- Works well with a thick layer of frost

Applications

- All glassware
- Locks

Technical data

Base	Solvent mixture
Consistency	Liquid
Density	ca. 0,81 g/ml
Application temperature	-20°C → +35°C
Volatile organic compounds (VOC)	96%
Solubility in water	Fully soluble

Substrates

- Suitable substrates
glass metal

Application method

- Application method
Shake can well before use. Spray at a distance of appr. 20 cm of the object. Apply as required. Wipe the windshield with a cloth after applying the product. Avoid contact with the bodywork. When the aerosol is kept for a long time below 5°C, there is a risk the yield of the aerosol drops. When this is the case, bring the aerosol back on the recommended temperature between 5 - 25°C (never use direct heating).

Health- and Safety Recommendations

Dangerous. Respect the precautions for use.
In case of contact with eyes, wash immediately with plenty of water.
Use only in well-ventilated areas.

Packaging/Logistics

Colour: Transparent
Packaging: 400 ml aerosol
Shelf life: 3 years in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°C

De-icer

This technical data sheet replaces all previous versions. The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. It is general in nature and does not constitute any liability. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. Since the design, the quality of the substrate and processing conditions are beyond our control, no liability under this publication is accepted. It is the responsibility of the user to determine by his own tests whether the product is suitable for the application. In every case it is recommended to carry out preliminary experiments. The manufacturer reserves the right to modify products without prior notice.
