

Soudal Hazard Tape

Date: 07/02/2024 – NEW

Page 1 from 1

Technical data

Material	PVC
Adhesive	Solvent based adhesive
Total Thickness	0.150 mm
Elongation at break	160%
Adhesion	1.2 N/cm
Tensile Strength	27 N/cm
Service Temperature	Up to 80°C

Product description

Soudal Hazard Tape is a high quality PVC tape.

Properties

- Traffic resistant.
- Durable.
- Highly flexible.

Applications

- For recognition of hazards.

Packaging

Colours: Red/white and black/yellow.

Packaging: Tape roll 33m long, 50mm wide.

Shelf life

In unopened packaging in a dry and cool storage at temperatures between +15°C and +25°C: 12 months.

Liability

The content of this technical data sheet is the result of tests, monitoring and experience. It is general in nature and does not constitute any liability. It is the responsibility of the user to determine by his own tests whether the product is suitable for the application.

Remark: This technical data sheet replaces all previous versions. The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. Since the design, the quality of the substrate and processing conditions are beyond our control, no liability under this publication is accepted. In every case it is recommended to carry out preliminary experiments. Soudal reserves the right to modify products without prior notice.
